Climbing the language mountain
Tips for success
Plan the journey in stages.
Set yourself goals.
The journey is steepest at the start.
It starts to get much easier after A2.
Expect some fog early on. Stick it out.
This is one mountain you can't fall off!
You'll reach a point of sudden illumination...
Do anything to get more exposure / move forward.
Be resourceful - there's more than one route up!
Test frequently to find out where you are or if you're making mistakes without realising.
Go back if you need to! Be organised.
Learn about learning to climb faster.

What do you need to learn Online?
